## Rebate Application

### Business Member Information:

Business Name \_\_\_\_\_

Installation Address \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_ ZIP \_\_\_\_\_

Contact Name \_\_\_\_\_ Account # \_\_\_\_\_

Email \_\_\_\_\_ Phone \_\_\_\_\_

### Application Checklist:

- Rebate application with signature
- Itemized project invoices (labor & materials)
- Equipment specifications

The undersigned does hereby certify that the undersigned is solely responsible for the accuracy of the information contained in this application. All rules of the program have been followed and the installation is complete. The undersigned acknowledges that nothing contained in the application imposes any liability on the cooperative for the work performed and information presented by the member, member's engineer, contractor, or vendor. The undersigned also authorized payment of incentive directly to the specified rebate recipient.

**Rebate applications due no later than November 1, 2022.**

## Rules & Information

### Warranty Information:

Rebate qualifications do not imply any representation or warranty of such equipment, design or installation by the cooperative. The cooperative shall not be responsible or liable for any personal injury or property damage caused by this equipment. The cooperative does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall the cooperative be liable for any incidental or consequential damages.

### General Program Rules:

1. The member is responsible for checking with the cooperative to determine funding availability and resolve questions on program rules and qualification of products.
2. Installation must be complete before application is submitted and rebate funds are issued.
3. Members and vendors must submit itemized equipment invoices, rebate application, and manufacturer equipment specifications. To ensure that the equipment installed meets the cooperative's performance standards, these invoices must itemize labor charges, quantity and price of the equipment installed, as well as information regarding the manufacturer and model numbers for all equipment included in the rebate.
4. Rebates must be applied for within 12 months of invoice date.
5. The cooperative reserves the right to conduct random inspections of installations.
6. The rebate shall not exceed 50% of project cost up to \$25,000 per project.
7. Rebate amount subject to change at any time without notice.
8. Once funds are depleted, project will be processed the following rebate year and will be subject to the new year amounts.

### Compressor

**Cycling air dryer** - replacement of non-cycling refrigerated air dryers with cycling air dryers, or new system with cycling air dryers.

**Engineered nozzles** - replacement of standard air nozzles to engineered nozzles or a new system with engineered nozzles. Also referred to as venturi or air amplification nozzles.

**Low pressure drop filters** - replacing coalescing filters with low pressure drop filters or a new system with low pressure drop filters. Also referred to as mist eliminators.

**No loss drain** - replacement of open tube, timed or manual condensate drain with an electronic, pneumatic, or hybrid no loss drain that automatically adjusts with demand and eliminates condensation with zero compressed air loss.

**Pressure/flow controller** - installation of a pressure/flow controller downstream of an air storage receiver.

**Storage tank** - a storage tank providing extra capacity for the compressed air system which prevents the compressed air from reacting to every demand event.
