### Rules & Information

### Warranty Information

Rebate qualifications do not imply any representation or warranty of such equipment, design or installation by the cooperative. The cooperative shall not be responsible or liable for any personal injury or property damage caused by this equipment. The cooperative does not guarantee that a specific level of energy or cost savings will result from the implementation of energy conservation measures or the use of products funded under this program. In no event shall the cooperative be liable for any incidental or consequential damages.

### General Program Rules

- 1. Installation must be complete before funds are issued.
- Members and vendors must submit a copy of the project invoice, completed rebate application, and manufacturer equipment specifications.
- 3. Project must comply with all program specific-rules and qualifications.
- 4. The member is responsible for checking with the cooperative to determine funding availability and resolve questions on program rules and qualification of products.
- 5. All EVSE equipment must be UL or equivalent listed.
- 6. The rebate shall not exceed 50% of project cost up to \$25,000 per project.
- 7. Rebate amount subject to change at anytime without notice.
- 8. Once funds are depleted, project will be processed the following rebate year and will be subject to new year amounts.

### Electric Vehicle Charger Requirements

- 1. Commercial EV charging projects require pre-approval. Please contact your cooperative to complete the necessary pre-approval process to confirm eligibility.
- 2. Rebates are limited to installations of level 2 EV charger.
- 3. Pay-for-use applications are ineligible for this rebate.
- 4. Rebates are available for both purchased and leased (5 year minimum term) level 2 EV chargers.
- 5. DC fast charge (DCFC) installations and equipment are not eligible for this prescriptive rebate. DCFC installations may be eligible for a custom rebate. Please contact your cooperative for further details.
- 6. Rebates are capped at prescriptive amount or 50% of the projected cost, whichever is less.
- 7. One EV charger rebate allowed per metered service.
