

MINNESOTA SALES TAX EXEMPTION FOR ELECTRIC HEATING

Electricity sold for residential use is not taxable for the billing months of November through April when sold to metered members who use it as their primary source of residential heat. If more than one type of heat is used, the electricity is not taxable if it is the primary source of heat (supplies more heat than any other source for the longest period of time during the heating season).

If the primary source of residential heat is electricity and there is only one meter for that utility, then all electricity measured through that meter is not taxable during the winter heating months. **Reference MN Department of Revenue Sales Tax Fact Sheet 157**.

My signature below certifies that I meet all requirements outlined on the Minnesota Sales Tax Fact Sheet 157 and I am exempt from Minnesota sales tax on my electric bill.

If I fail to meet these requirements in the future, I understand it is my responsibility to notify East Central Energy of such change to avoid being in violation of the state law.

TO BE COMPLETED BY ECE MEMBER

Name(s) as shown on electric bill:			
ECE account number(s):	Meter number(s):		
Address:	City:	State:	Zip:
Telephone:	Cellphone:		
Email:			
Verify your heating system:			
Air source heat pump			
Ground source heat pump			
Electric baseboard, cove, stora	ge heat furnace (does NOT include po	rtable/plug-in units)	
Electric plenum heater			
Electric in-floor radiant (boiler) heat		
Other			_
Signature(s):		Date:
