

ABOUT US

ECE is a member-owned electric cooperative. Formed in 1936, we currently provide electric service to nearly 61,000 homes, farms, and businesses in east central Minnesota and northwestern Wisconsin.

ECE's main office and operations center are located in Braham, MN, with service and/or operations centers in Milaca, Finlayson, and Wahkon, MN, and Superior, WI.

CONTACT US

If you have questions or would like assistance in making these savings a reality for your business, please contact a business accounts specialist at 1.800.254.7944

Rates

- Large load economic development (LLED) – A five year demand (kW) discount for business members with a new electric load having a minimum of 750 kW and 40% load factor each billing period.

Note: the member is not eligible for the C&I rate during the five year demand discount period, plus an additional three years.

- C&I Interruptible – A competitive rate for business members with a minimum of 50 kW controllable electric load. Member agrees to control their electrical usage through curtailment or with the use of on-site generation.

Incentive

Line extension incentives are available to new and existing business members who add a new service with a minimum of 500 kW electric demand and load factor of 50%.

Gap Financing

Loans are available for non-retail and non-farm businesses with low interest rates for land and building acquisitions and improvements, new building construction, machinery, sewer and water improvements, along with energy efficient equipment purchases.

Rebates

Rebates are available for energy efficient purchases and improvements, including retrofit lighting, premium efficient motors and variable frequency drives, heating, ventilation and air conditioning. If the energy efficient project doesn't fit one of these rebates the custom rebate process may be an option with prior approval.
