

ENERGY WISE

for your Home

Your central air conditioner (CAC) or air-source heat pump (ASHP) can be your best friend on hot summer days. If you treat it well and keep it running efficiently, it will keep you cool and comfortable for less money.

TUNE UP FOR SUMMER

The best way to ensure efficient operation of your cooling system is by having it tuned-up every two years. A tune-up by a service expert can improve your unit's efficiency by as much as 20 percent, extend its life and help protect our environment.

To qualify for the tune-up rebate:

1. Tune-up must be completed where electricity is supplied by East Central Energy.
2. The CAC or ASHP must be in operating condition, at least three years of age and have not had a tune-up in the last two years.
3. Rebate submittal must follow the guidelines as listed.
4. Program is subject to change or cancellation without notice. Call East Central Energy to verify rebate status.
5. Program is for tune-ups only; it does not cover the cost for repairs of the air conditioner or heat pump.

Contact a local HVAC service contractor and receive a \$25 rebate.

- A licensed HVAC contractor must perform the tune up and complete the form below. ▪

Return the form to East Central Energy along with a copy of the contractor invoice. ▪

The rebate option is available to members through Dec. 31, 2021.

- Please allow 4-6 weeks for bill credit to appear on your electric bill.
